

EDITORIAL

Dear Colleagues,

We meet our readers with a new issue of our Bezmialem Science journal. Of the original research articles included in this issue, those with the titles of “Cultural Reflections of the Expressions of the Anxiety of Patients with Generalized Anxiety Disorder” by ASOĞLU et al., “Comparison of Trauma Scoring Systems in Children with Chest Trauma” by AYDOĞDU et al., and “Resveratrol attenuates bleomycin-induced genotoxicity, pulmonary fibrosis and DNA damage in balb/c mice with ehrlich ascites carcinoma” by KOYUNCU et al. are among the studies at the forefront.

Your contribution to our journal with your valuable studies is very important in terms of both being useful to our country and contributing to the world of science, and it will also please us for becoming a more qualified journal. I would like to thank all of our authors, reviewers, editorial board, and everyone who contributed to this issue of our journal.

Goodbye to meet on the next issue.

Prof. Dr. Adem AKÇAKAYA
Editor in Chief
